GROOM SMART, GROOM SAFE.

Most people consider their pets an important part of their family. As with any family member, we want our pets to be safe and comfortable when they are out of our care. Choosing a qualified pet groomer will go a long way in giving your pet a satisfying and stress-free grooming experience, while ensuring that they are safe while they are away.

When choosing a pet groomer, be sure that the groomer follows the following important rules:

- Safety should be all groomers' number one priority.
- Groomers should always be kind to animals and continually reassure them that everything is OK.
- A pet should never be left unattended either on a table or in a tub.
- A pet should be returned to his cage if the groomer needs to walk away for a moment.
- The best groomers understand that being kind to a pet is just as important as doing a thorough job.
- Successful groomers perform these actions consistently.
- Choose a groomer that is licensed and insured.
- A groomer with integrity will always inform a pet owner if their animal was inadvertently nicked or cut during the grooming process.

Donna's Pet Grooming follows these important guidelines at every job, for every pet, every time. To choose Donna's Pet Grooming and set up an appointment, call Donna at 510-581-2727 today.
